

SAMPLE – LIVE DEMO OUTPUT · DEMONSTRATION RATES

Quotation — steel access staircase

Basis: VT-DEMO-CALC-001 & VT-DEMO-BOM-001 · straight layout, 3.00 m rise, 1.00 m width · demonstration rates incl. 15% margin

LINE	DESCRIPTION	BASIS	AMOUNT (RM)
1	Structural steel — stringers, landing frame, kickplate	260 kg	2,033
2	Treads & landing plate — checker plate 6 mm	289 kg	2,459
3	Handrail — 42 mm tube system	12.7 m	599
4	Shop labour — fabrication & welding	29 hr	1,934
Total			RM 7,025

Every number traces. Change the rise to 3.2 m and all four lines re-solve — geometry, members, weights, hours, price — because they are one computation, not four documents. Generated in 0.2 s.

Generated by the Valtrin estimating demonstration engine — the same computation that runs live at valtrintechnologies.com. Rates are demonstration rates, not an offer. Your build would run on your products, your rates, your rules — validated against your own past jobs (the Re-quote Test).
